Hello, I'm Bima, a Digital Creative specializing in UI/UX Design and Graphic Design, with a degree in Informatics from Amikom University Yogyakarta and over 2 years of experience in the design industry. I am skilled in designing clean, user-friendly, and accessible interfaces for websites and mobile apps. I am also responsible, with strong time management skills, and experienced in project management. With solid teamwork abilities, I can collaborate effectively to ensure everything runs smoothly and prioritize tasks efficiently.

## EDUCATION

---

### UNIVERSITY OF AMIKOM YOGYAKARTA – Sleman, Yogyakarta

*Bachelor's Degree (S1) - Informatics*

*September 2021 – June 2025*

I completed my education at the University of Amikom Yogyakarta, Faculty of Computer Science, Department of Informatics, in June 2025, after starting my studies in September 2021. During my education, I achieved a IPK of 3.74 and graduated with Cum Laude honors, reflecting my dedication and commitment to academic excellence.

### INFINITE LEARNING INDONESIA – Batam, Kepulauan Riau

*SIB Kampus Merdeka – Web Development*

*September 2024 – November 2024*

I started my studies at Infinite Learning Batam, Indonesia, in the Certified Independent Study Program, Batch 5, with a focus on web development. During this program, I gained valuable knowledge in various fields, including UI/UX design, product research, frontend and backend development, cybersecurity, digital marketing, and more. The study was conducted online for one semester, providing me with practical skills in these areas.

### SMKN 1 GODEAN – Sleman, Yogyakarta

*Vocational High School - Multimedia*

*July 2018 – June 2021*

I pursued my education at SMKN 1 Godean, majoring in Multimedia. During my time there, I studied both the theory and practice of multimedia and information technology (IT). The program covered various subjects, including networking, photography, videography, editing, graphic design, and basic programming. This comprehensive curriculum helped me develop practical skills and a solid understanding of multimedia and IT concepts.

## EXPERIENCE

---

### AMIKOM BUSINESS PARK STARTUP INCUBATOR – Sleman, Yogyakarta

*UI/UX Designer Intern*

*January 2025 – June 2025*

- Create wireframes, mockups, and interactive prototypes.
- Ensure designs align with brand guidelines and visual identity.
- Conduct product research with users.
- Conduct usability testing with users using Maze.

*Graphic Designer Intern*

*January 2024 – December 2024*

- a. Managing the social media accounts of ABP Startup Incubator.
- b. Planning and creating daily, weekly, and monthly content ideas for social media accounts.
- c. Designing creative content for both social media and print media.

**PT. Media Sarana Data (Gmedia) – Sleman, Yogyakarta**

*UI/UX Designer Intern*

*September 2024 – November 2024*

- a. Create user flows and visualize them into designs.
- b. Designing UI Mobile & Web Application (Responsive design)
- c. Develop web and mobile mockups as well as User Interface prototypes to implement product functions.
- d. Wireframing, Prototyping & Testing Application.
- e. End-to-end mockup documentation.

**Forum Asisten Amikom – Sleman, Yogyakarta**

*Hardware      Software      Course      Laboratory  
Assistant*

*February 2023 – July 2024*

- a. Designed Assisted students during computer hardware and software lab sessions, ensuring hands-on activities ran efficiently.
- b. Maintained lab equipment and ensured readiness for each session.
- c. Provided technical guidance and troubleshooting support to enhance student learning outcomes.

*Multimedia Course Laboratory Assistant*

*September 2023 – January 2024*

- a. Provided hands-on support to students in multimedia classes, especially in video editing, animation, and basic visual storytelling.
- b. Mentored students in applying creative design principles to their assignments, including storyboarding, visual consistency, audio syncing, and motion graphic fundamentals, helping them enhance both technical and storytelling quality.
- c. Maintained high standards for project outputs by reviewing student work, offering constructive feedback, and ensuring alignment with academic and project requirements under tight deadlines.

*Microcontroller Course Laboratory Assistant*

*September 2023 – January 2024*

- a. Facilitated student projects involving IoT and embedded systems using ESP32 microcontrollers.
- b. Provided hands-on assistance in coding, circuit design, and deployment.
- c. Helped students understand core microcontroller concepts through structured lab sessions.

## **CERTIFICATION**

---

**INFINITE LEARNING INDONESIA**

- 1. MSIB Batch 5 Certificate
- 2. UI/UX Design Workshop
